

We're Proud to have received a **Star Rating for our Quality** that is **above both the Ohio and National Average!**

The Centers for Medicare and Medicaid Services (CMS) created the Home Health Star Ratings program to recognize the highest quality care and help families decide which home health agency will be best for their loved ones.

The rating is made up of nine key quality measures that represent patient outcomes and overall quality of a home health agency's care.

These measures include:

- ★ How often the home health team educated patients, families and their caregivers about their medications and patients improved at taking their medications correctly.
- ★ How often patients were evaluated for risk of falling.
- ★ Patients improvement in key areas like bathing, transferring in and out of bed, walking as well as improvement in breathing and decrease in pain while moving
- ★ How often care began in a timely manner
- ★ How often the home health team made sure a pneumonia vaccine and flu shot were given

Miracle Health Care is Proud to Stand Behind Our Star Rating!

Only a small percentage of all Home Health Agencies are rated at 4.5 stars or better as of the July 2017 ratings.

We are honored to be recognized as one of the top agencies not only in Ohio but across the country. Our entire team is dedicated to providing quality care on a daily basis and improving the outcomes of our clients.

Just call to learn more about our agency, our star ratings or refer a patient. We are here to assist our referral sources, to be a consistent and reliable resource, and to provide exceptional care.
